Web:www.transformercoilwindingmachine.com

NAME: KXL-515 High speed Toroidal transformer Coil Winder Machine

SPECIFICATION:

Wire diameter	0.5-1.0	Max.winding speed	600rpm
Max.final coil.O.D	60-230	Magazine Diameter	300
Min.final coil.I.D	50	Supply voltage	AC 220V (50Hz)
Max.finalcoil height	130	Mechanical dimensions	500×600×800
Magazine width	12-18	Weight	110kg

FEATURES:

Toroid Coil Winder Machine feature high quality,easy to operate.

Lock gap shuttles,with polished sliders,gentle on wire insulation.

Toroid Coil Winder Machine is ability to control winding speed.

Shuttles of Toroid Coil Winder Machine may be exchanged in minutes for maximum flexibility.

KIOXIA LIGHT RING EQUIPMENT GROUP CO.,LTD.

Add: Building G, No.209 Zhonghuan East Road, Free Trade Zone (Airport Economic Zone), Tianjin

Direct winding onto cores.

ADVANTAGES:

Complete range of articles, large range of wire diameter, Multipurpose
Good compatibility, parts are interchangeable
High stability, part quality guarantee
High production efficiency, no wire breaking at high speed winding
Toroid Coil Winder Machine is easy to operate, High learnability
Free replacement of mainframe accessories
The technicians are experienced
Enquiries can be quoted one day service
The storage ring has good material and long service life

APPLICATION:

The KXL-515 High speed Toroidal transformer Coil Winder Machine is exceptionally well-suited for processing a wide range of toroidal components, making it a reliable choice for specialized winding needs. It delivers high-speed operation without compromising precision, perfectly adapting to the production requirements of:

Toroidal inductors
Toroidal transformers
Toroidal current transformers
Toroidal coils
Toroid choke coils
Power inductors
UPS inductors
Converter inductors
Heavy toroidal cores

Whether for standard or heavy-duty toroidal parts, this machine's high-speed performance and targeted design ensure efficient, consistent winding results, aligning with the diverse application demands of toroidal component manufacturing.

PACKAGING:

Packaging Material: Carton/Wooden case with foam inside.

1.General package(Paper carton or plastic bag): For small equipped parts for Toroidal Transformer Winding Machine , Package it with form and pack paper to guarantee unbroken during the transport.

2.Wooden case package: For larger scale Toroidal Winding machine ,we have special skilled carpenter, who would make the proper wooden case with exact thickness,density,length. The up arrow ↑marked on the outer wooden case. Buffer material would be put in the wooden case to prevent crack and shock.

FACTORY:

We—KIOXIA LIGHT RING EQUIPMENT GROUP—have stood as experts in winding machine lines for 28 years, with a specialized product portfolio that includes the KXL-515 High speed Toroidal transformer Coil Winder Machine — a high-performance solution engineered specifically for toroidal transformer coil winding. Its emphasis on high-speed operation, paired with precise winding control, addresses the efficient production needs of toroidal transformer components, embodying our decades of expertise in tailored winding equipment.

Our KIOXIA LIGHT RING brand further solidifies its credibility with authoritative certifications and honors: ISO9001:2015 certification, CE approvals, multiple machine patents, and the official recognition of being a "high-tech enterprise" by the government. These credentials not only validate the technical reliability and quality of the KXL-515 High speed Toroidal transformer Coil Winder Machine but also underscore our long-standing strength in R&D and manufacturing within the winding machine industry.
